KING'S POLICE MEDAL.

NOTIFICATION.

POLICE.

Delhi, the 1st January 1926.

No. F.-25-III.-25.—His Majesty the KING, EMPEROR OF INDIA, has been pleased to confer the King's Police Medal, and in one case a bar to the medal previously awarded, on the following officers and men of the Indian Police Establishments :—

Name of officer and rank.	Statement of services for which, in particular, the decoration has been conferred.
* * *	* * *
	BENGAL.
Nirmal Kanti Ray, Officiating Assistant Sub-Inspector, Bengal Police.	This officer has shown tact and courage and devotion to duty at the risk of his life.
Sheo Saran Singh, Constable, Calcutta Police.	In June 1924 Calcutta was filled with rumours of kidnapping of young children by Sikhs in connection with alleged sacrifices at the King George's Dock, Kidderpore, where extensive excavations were taking place. This rumour led to instances of assault on members of the Sikh community in Calcutta which ended fatally in several cases. On the 10th June a Sikh was waylaid by a mixed gang of local Muhammadans and Hindus. A constable heard of this when on patrol and went to the place, but finding the crowd too large for him ran to a distance and blew his whistle which brought up constable Sheo Saran Singh. The constables proceeded to take off their belts and flourished and brandished them in the face of the crowd which they kept at bay for some time. Finding the position untenable they pluckily and skilfully withdrew the Sikh and pushed him inside a roadside culvert and stood at either end keeping the crowd from maltreating the man. Information had in the meantime reached the local police-station and reinforcements arrived which effected a rescue. Constable Sheo Saran Singh thus showed great courage and devotion to duty at the risk of his own life.
12. Upendra Chandra Ghosh, Officiating Sub-Inspector, Bengal Police.	This officer has rendered valuable services at great personal risk and has shown great devotion to duty and absolute fearlessness.
13. John Elliot Armstrong, O.B.E., Deputy Inspector-General of Police.	Mr. Armstrong joined the Indian (Imperial) Police Service in 1897 and was promoted to his present rank in 1920. He has held various important appointments in different branches of the Police Service and has been almost continuously in charge of the C. I. D. since 1919. He has for some time been in charge of the Intelligence Branch in addition and has shown marked ability in controlling the heavy work of both departments. In organising arrests under Ordinance I of 1924 and under Regulation III of 1818 and in dealing with revolutionary activities generally Mr. Armstrong has shown great tact, patience and ability. Mr. Armstrong is a particularly able, hardworking and loyal officer and has shown great devotion to duty throughout his service.
14. Jatindra Nath Sinha, Probationary Inspector, Bengal Police.	The service record of this officer has been characterised by specially meritorious work from the beginning and he has shown marked detective ability in several dacoity cases. In 1920 and 1921 he completely checked the activities of a dangerous Punjabi gang of dacoits whose field of operation extended over several districts. He is one of the best detectives in the Force and has shown considerable courage and devotion to duty at the risk of his life.

II. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered :—

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches ; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral muntiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10 The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows :—

(1) On all vessels empty or laden, per hundred maunds	Eight annas.
(2) On all vessels empty or laden, for 12½ maunds or less	One anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth	Four annas each raft.

Tolls will be levied at Hulerhat and Perojpore.

13. For boats frequently using the canal such as boats carrying passengers grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevent points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

S. R.-25, dated the 6th February 1925 :—

(9) An officer, who at the time of proceeding on leave declares his intention of retiring from service, is entitled to draw on the Passage Fund for single passages only. If the officer does not actually join duty, the entire cost of the return passage, or the cost of the journey to India only, according as the return half of the ticket or tickets is or is not used, will be recovered from him.

When an officer takes return passages for himself and his wife and / or children and returns to duty in India leaving his wife and / or children at home or when an officer while on duty in India sends his wife and or children out of Asia on return tickets of which the second halves are not utilised, he should return the unused half of the return ticket or tickets to the Audit Officer concerned in India. If, however, the second halves of the return tickets are actually utilised, the officer should make a declaration in due course to the Audit Officer that the tickets have actually been utilised.

No refund will be made by a Steamship Company under this rule except to the Audit Officer, who will make the necessary adjustment of the amount between the officer and the Government if the cost of the passage involved or any portion thereof has been borne by the officer.

HEALTH.

Delhi, the 8th February 1926.

No. 184.—The following draft of certain rules which it is proposed to make in exercise of the powers conferred by sub-section (*1*) of section 213 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), is published, as required by sub-section (*4*) of the said section, for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st day of June 1926. Any objection or suggestion which may be received from any person in respect to the draft before the said date will be considered by the Governor General in Council:—

Draft Rules.

1. (1) These rules may be called the Boats and Life Saving Appliances (Pilgrim Ships) Rules, 1926.

(2) They apply to Pilgrim Ships and shall come into force on the 1st January 1927 from which date rules 6 to 9 and 16 and 17 of the rules published with the notification of the Government of India in the Home Department, No. 1902 (Sanitary), dated the 14th October 1910, shall cease to have effect.

2. In these rules unless there is anything repugnant in the subject or context :—

Definitions.

(1) "Approved" means approved by the local Government.

(2) "Boat-deck" means any deck on which boats are carried and of which the space required for the stowage of boats under rule 19 occupies half or more of the length or breadth of such deck.

(3) "Daylight" means the period from one hour before sunrise until one hour after sunset.

(4) "Length" in connection with a ship means the registered length of the ship.

3. (1) Every pilgrim ship shall, subject to the provisions of sub-rule (*1*) of rule 27 be provided, in accordance with its length, with the number of sets of davits specified in column A of the Table in the Appendix to these rules :

Davits.

Provided that the local Government may, where it appears to them necessary, having regard to the height at which the boats are carried above the centre of the load line disc, and to the other circumstances of the case, require a ship of this class to carry in lieu of, or in addition to davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in their opinion, effective.

(2) (*a*) Pilgrim ships launched before the 1st January 1927, shall carry lifeboats, of which at least one shall be a motor boat, in such number and of such aggregate capacity as shall be sufficient to accommodate fifty per cent. and in the case of those launched on or after the 1st January 1927, seventy-five per cent. of the total number of persons which is carried or which the ship is certified to carry, whichever number is the greater.

Lifeboats.

(*b*) Each set of davits shall have a lifeboat of class I attached to it, and of these lifeboats at least the minimum number specified in column B of the Table in the Appendix to these rules shall be open boats. The minimum aggregate cubic capacity of the lifeboats to be attached to the davits shall be in accordance with the scale specified in column C of the table in the said Appendix.

(*c*) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (*a*) may be boats of class I or class II.

4. If the lifeboats carried do not provide sufficient accommodation for the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, approved buoyant apparatus shall be carried sufficient for those persons for whom accommodation is not provided in lifeboats.

Buoyant apparatus.

5. Notwithstanding anything contained in clause (*a*) of sub-rule (*2*) of rule 3 or in rule 4 the master or owner of a pilgrim ship may carry on any voyage fewer lifeboats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, if he declares before the Port Officer at the time of clearance that the lifeboats and approved buoyant apparatus actually carried will be sufficient to accommodate all persons who will be carried at any time during the voyage from and also during the voyage back to British India.

Exemptions in case of specified voyages.

6. If the ship is under 400 feet in length, at least twelve approved lifebuoys shall be carried ; if 400 feet or over, but under 600 feet, at least eighteen approved lifebuoys shall be carried ; if 600 feet or over, but under 800 feet, at least twenty-four approved life-buoys shall be carried ; and if 800 feet or over, at least thirty approved lifebuoys shall be carried.

Lifebuoys.

Lifejackets.

7. One approved lifejacket shall be carried for each person on board.

8. The local Government shall have power in general or in any particular case, to accept any boat, buoyant apparatus, other life-saving appliance or arrangement, in lieu of a life-saving appliance or arrangement required by these rules, subject to such conditions as they may impose, if they are satisfied that under those conditions it will be as effective as the appliance or arrangement required by these rules :

Power to accept alternatives

Provided that in the case of a ship launched on or after 1st January 1927, no life-saving appliance shall be accepted in lieu of a lifeboat required by these rules, except some other approved type of lifeboat.

Classification of life-boats.

9. For the purposes of these rules lifeboats are arranged in the following classes :—

CLASS I.

A.—*Open lifeboats with internal buoyancy only.*

The buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—*Open lifeboats with internal and external buoyancy.*

The internal buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

C.—*Pontoon lifeboats having a well deck and fixed watertight bulwarks.*

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS II.

A.—*Open lifeboats having the upper part of the side collapsible.*

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy the volume of which for each person which the boat is able to accommodate shall be at least equal to the following amounts :—

	Cubic feet.
Air-cases	1·5
External buoyancy (if of cork)	0·2

The minimum freeboard of boats of this type is fixed in relation to their length ; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts :—

Length of the Boat in feet.	Minimum Freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—*Pontoon lifeboats having a well deck and collapsible bulwarks.*

All the conditions laid down for boats of Class IC shall be applied to boats of this type, which differ from those of Class IC only in regard to the bulwarks.

C.—*Pontoon lifeboats having a flush deck and collapsible bulwarks.*

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded

The freeboard in fresh water shall not be less than the following amounts which are applicable without correction to boats having a mean sheer equal to three per cent. of their length :—

Depth of Boat in inches.	Minimum Freeboard in inches.
12	2¾
18	3¾
24	5⅛
30	6½

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference

between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

Motor boats.

10. (1) A motor boat carried as part of the statutory life-saving appliances of a pilgrim ship shall comply with the following conditions:—

(a) It shall comply with the requirements for a lifeboat of Class I, and proper appliances shall be provided for putting it into the water speedily.
(b) It shall be adequately provided with fuel, and keep so as to be at all times ready for use.

(2) In fixing the volume of the internal buoyancy and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and its accessories, and the weight of the additional persons which the boat could accommodate if the motor and its accessories were removed.

(3) Notwithstanding anything contained in this rule, a lifeboat fitted with the Fleming gear shall be accepted in lieu of a motor boat, provided that it otherwise complies with the requirements specified in the said sub-sections

Construction of life boats.

11. (1) All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the local Government.

(2) The structural strength of the boats shall be to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

Seating accommodation.

(3) In all open boats, all thwart and side seats shall be fitted as low in the boat as practicable, and shall provide seating accommodation for all persons the boat is deemed fit to carry, and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

Buoyancy

(4) Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of Class I may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material; the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air, is prohibited.

Sheer.

(5) Open lifeboats of Class I shall have a mean sheer at least equal to four per cent. of their length.

Pontoon lifeboats.

(6) Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the local Government for each type of boat by a special test.

For the purpose of this test:—

(a) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment;
(b) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class IC	...	...	...	60 seconds.
Class IIB	...	...	...	60 „
Class IIC	...	...	...	20 „

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

Marking of lifeboats.

(10) All boats shall be permanently marked to the satisfaction of the local Government in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

12. (1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 13 and 14), by the standard unit of capacity, or unit of surface, defined below.

Number of persons.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows :—

Units of capacity.	Cubic feet.
Class IA	10
Class IB	9

Units of surface.	Square feet.
Class IIA	$3\frac{1}{2}$
Class IIC	
Class IC	$3\frac{1}{4}$
Class IIB	

(4) The local Governments may accept a smaller divisor for pontoon boats of Class IC and Class IIB, if they are satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of $3\frac{1}{4}$ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced :—

(i) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(ii) If, in the case of boats other than open boats of Class I, the freeboard when the boat is fully loaded is less than the freeboard required by these Rules.

(6) If the Government Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

Test afloat.

(7) The local Government may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

Children.

(8) Two persons of the age of one year or upwards and under the age of twelve years shall be reckoned as one person.

Cubic capacity of Open Boats of Class I.

13. (1) In the case of an open boat of Class I the cubic capacity shall be determined by the following formula :—

$$\text{Capacity} = \frac{l}{12}(4A + 2B + 4C).$$

l denotes the *length* of the boat in feet from inside of the planking or plating at the stem to the corresponding point at the stern post ; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, B, C denote respectively the *areas of the cross-sections at the quarter* length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections :—

$$\text{Area} = \frac{h}{12}(a + 4b + 2c + 4d + e).$$

h denotes the *depth* measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases to a lower level, as determined hereafter.

a, b, c, d, e denote the horizontal *breadths* of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceed 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-section A or C shall be deemed to be the depth amidships *plus* 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section *B* shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections *A* and *C* shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet the number of persons given by the application of these Rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board, all wearing lifejackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0·6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner :—

Length : From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth : From the outside of the planking at the point where the breadth of the boat is greatest.

Depth : Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

(7) The cubic capacity of a motor-boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the wireless telegraphy installation, the searchlight, the motor and its accessories.

Cubic capacity of motor boats.

14. In the case of Pontoon Boats and of open boats of Class II the surface in square feet shall be determined by the following formula :—

Deck area and capacity of Pontoon Boats and of Open Boats of Class II.

$$\text{Area} = \frac{l}{12}(2a + 1{\cdot}5b + 4c + 1{\cdot}5d + 2e).$$

l denotes the *length* in feet from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the *horizontal breadths* in feet outside the planking at the points obtained by diving l into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (a and e being the breadths at the extreme subdivisions, c at the middle point of the length, and b and d at the intermediate points).

15. No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.

Size of boats.

16. In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a lifejacket.

Weight of persons.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 135 lbs. for each adult person that the pontoon boat is authorised to carry.

17. (1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the local Government. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

Appliances for lowering boats.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of ships launched on or after the 1st January 1927, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible, or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangement as shall be satisfactory to the local Government.

(6) Where more boats than one are served by the same set of davits, arrangements shall be made to prevent the falls fouling when they are recovered and, where more than two boats are served by the same set of davits, there shall be provided an approved appliance for lowering the boats in turn and rapidly.

(7) The local Government may accept in lieu of davits or sets of davits any other appliance, appliances, or arrangements, which appear to them at least as effective as davits for placing the boats in the water.

Buoyant Apparatus.

18. Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

Such approved buoyant apparatus shall comply with the following conditions:—

(1) It shall be of approved material and construction.

(2) It shall be reversible.

(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stowed.

(4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.

(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

Stowage of Boats, Rafts, etc.

19. (1) All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

(*a*) They can be launched in the shortest possible time;

(*b*) They will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under rule 4 or the marshalling of the persons on board at the launching stations, or their embarkation;

(*c*) Even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them:

(*d*) Except as hereinafter provided, they shall be so stowed as not to require lifting before being launched.

(2) With regard to the stowage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

(*a*) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation;

(*b*) The lifeboats may be stowed one above the other or they may, subject to such conditions as the local Government may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;

(*c*) The lifeboats may be stowed in rows across a deck, bridge or poop;

(*d*) As large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;

(*e*) Means shall be provided to the satisfaction of the local Government for lowering the lifeboats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stowed as to be readily available in case of emergency.

Equipment for boats and buoyant apparatus.

20. (1) Every boat which is carried by any ship shall be equipped as follows :—

(*a*) With the full single banked complement of oars and two spare oars, and a steering oar.
(*b*) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.
(*c*) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.
(*d*) With a vessel capable of holding one quart for each person that the boat is deemed fit to carry. This vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.
(*e*) With two hatchets, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.
(*f*) With a line securely becketted round the outside of the boat.
(*g*) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours ; or with some other lantern or light at least as effective approved by the local Government.

(2) In addition to the equipment prescribed in sub-rule (*1*), the boats shall be equipped as follows :—

(*a*) With a mast or masts, and with at least one good sail and proper gear for each ; but this does not apply to an approved motor boat.
(*b*) With an efficient compass.
(*c*) With an air-tight case containing two pounds of biscuits for each person for whom the boat is approved.
(*d*) With one gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.
(*e*) With one dozen self-igniting red lights in a water-tight tin, and a box of suitable matches in a water-tight tin.
(*f*) With 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a pilgrim ship shall be equipped as follows :—

(*a*) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.
(*b*) A painter of sufficient length.
(*c*) A line securely becketted round the outside of the apparatus.
(*d*) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length ;

Provided that on buoyant apparatus, designed to support less than twenty-five persons the paddles, boathook and flares need not be carried.

(4) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour and the equipment shall remain in the boat or buoyant apparatus throughout the voyage, while the ship is at sea or shall be stowed in some convenient place where it will be immediately available in case of emergency.

Side Ladders.

21. In all ships, approved rope ladders shall be carried in proportion to the number of davits fitted, namely, not less than one ladder for each two sets of davits, provided that no ship shall be required to carry more than 10 ladders. The ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea-going draught and shall be carried in such a manner as to be always available for use in embarking the persons in the boats or rafts.

Illumination.

22. On all pilgrim ships in which the boat deck is more than 30 feet above the water provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched.

Lifejackets.

23. An approved lifejacket shall mean a jacket of approved material and construction which is capable of floating in fresh water for 24 hours with 15 lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Lifejackets the buoyancy of which depends on air compartments are prohibited.

Lifebuoys.

24. (1) (*a*) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(*b*) Lifebuoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with beckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

Position of Lifebuoys and Life-jackets.

25. All lifebuoys and life jackets shall be suitably placed to the satisfaction of the Government Surveyor and so as to be readily accessible to all persons on board; and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

Exemptions.

26. (1) Any boat which forms part of the equipment of a ship that was launched before the 1st January 1927, and which has been inspected and approved by the local Government before that date may be accepted as equivalent to a lifeboat for a period of two years from that date, so long as it remains in good condition.

(2) Boats which were ordered before the date of the promulgation of these rules in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the local Government before that date, may be accepted as equivalent to life-boats for a period of two years from that date, so long as they remain in good condition:

Provided that such boats shall not be so accepted unless—

(*a*) they have been inspected where this has not already been done;

(*b*) they would have complied with the requirements of the rules in force prior to the promulgation of these rules.

27. (1) If it appears to the Government Surveyor on the application of the owner of any ship, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may direct that one or more sets of davits may be dispensed with in that ship subject to such conditions, if any, as he may require:

Provided that the number of davits fitted shall not be less than the minimum number of open boats of the first class except in the following case:—

When a ship has been granted a passenger certificate previous to the introduction of these rules, the minimum number of sets of davits may, if the ship is between 245 feet and 460 feet in length, be one less, and if the ship is 460 feet or more in length, two less (one on each side of the ship) than the minimum number of open boats specified in column B of the Table in the Appendix to these rules;

Provided further that the owner of the ship in question shall be required to prove, by a test made in the presence of a Government Surveyor, that all the boats can be launched in a time to be fixed by him. The conditions of this test shall be as follows:—

(*a*) the ship shall be upright and in smooth water;

(*b*) the time shall be the time required from the beginning of the removal of the boat covers, or any other operation necessary to prepare the boats for lowering, until the last boat or pontoon raft is afloat;

(*c*) the number of men employed in the whole operation shall not exceed the total number of boat hands that will be carried on the vessel under normal service conditions;

(*d*) each boat, when being lowered, shall have on board at least two men, and its full equipment as required by these rules.

(2) If it appears to the local Government, on the application of the owner of any ship, that it is not practicable or reasonable in a particular case to require that pontoon life-boats, made before the date of the promulgation of these rules and carried on ships of which the keel was laid on or before that date, shall have the minimum freeboard specified in these rules or the bottom and deck and made in two thicknesses with textile material between, the local Government may in their discretion dispense with full compliance with the rules in these respects until two years from that date, subject to such conditions, if any, as the local Government may impose.

(3) If a small ship is unable to carry more than one boat, the local Government may in their discretion exempt that ship from carrying more than one, but whenever one boat only is carried there shall be proper provision to enable it to be placed readily in the water on either side of the ship.

(4) If it appears to the Government Surveyor that it is impracticable to carry the number of boats required by these rules, the possible number (in the absence of large structural alterations) shall be found by measurement, after taking into consideration the practicability of launching these boats in rough weather.

Manning of lifeboats, etc.

28. Boat's crews shall be carried in all ships to which these rules apply on the following scale, namely:—

29. From a date to be notified by the Governor-General in Council each lifeboat shall be in charge of a minimum number of lifeboatmen holding certificates issued under the authority of the local Government concerned. In order to obtain the certificates, the men must prove that they have been trained in all the operations connected with the launching of lifeboats and the use of oars: that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and answering the orders relative to lifeboat service.

Lifeboatmen.

30. A man capable of working the motor shall be assigned to each motor-boat. The allocation of certificated lifeboatmen to each boat and raft shall remain within the discretion of the master according to circumstances. The officer or petty officer placed in charge of each boat or set of rafts shall have a list of its crew and shall see that men placed under his orders are acquainted with their several duties and stations. The duty of seeing that the boats, pontoon-rafts and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

Motormen.

31. The muster list shall assign duties to the different members of the crew in connection with—

32. The muster-list shall specify definite alarm signals for calling all the crew to their boat and fire stations and shall give full particulars of these signals. Before the vessel sails the master shall draw up and exhibit the muster-list and the proper authority shall be satisfied that the muster-list has been prepared for the ship and posted in several parts of the ship and in particular in the crew's quarters.

Muster-list.

33. (1) In all ships to which these rules apply, a boat drill and a water-tight door drill shall be held as soon as possible after leaving the original port of departure and at convenient intervals of not less than a week during the voyage. Such drills shall be recorded in the official log.

Drill.

(2) The Government Surveyor shall be satisfied, in each case before the ship leaves port, that a return has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Government Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(3) In carrying out the boat and water-tight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log shall state whether and when this has been done.

34. In all ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action every night.

[Third publication.]

No. 51.—The 6th March 1926.—The following draft of rules and schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix, for the Damodar Channel joining the Katcha and Baleswar rivers in the Perojpur subdivision of the Bakarganj district, is hereby published for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered :—

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches ; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral muntiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10 The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows :—

(1) On all vessels empty or laden, per hundred maunds	Eight annas.
(2) On all vessels empty or laden, for 12½ maunds or less	One anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth	Four annas each raft.

Tolls will be levied at Hulerhat and Perojpore.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevent points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

FINANCE DEPARTMENT.

NOTIFICATION.

Delhi, the 15th March 1926.

No. F.-6-F.—The Government of India have had under consideration the question of reducing the yield on Post Office Cash Certificates in view of the rates at which they have been able to borrow in the open market during the current year and in the last two years. 2. It has also been suggested to the Government of India that, following the recommendations contained in the *interim* report of the Lubbock Committee in England, opportunities should be offered to holders of Cash Certificates in India to retain their holdings after the expiry of the original period of issue. The Government of India have carefully considered the suggestion and decided to give effect to it in the following manner. Holders of Cash Certificates ***issued prior to the 1st April 1926***, will be allowed, at their option, to hold them for a further period of five years after maturity. They will earn interest thereon at the rate of 2 annas (on a Cash Certificate of the minimum denomination of Rs. 10) for every completed three months after maturity, and receive an additional bonus of 8 annas on such a certificate after retaining it for the full period of 5 years. The amounts repayable from time to time are given in the following table :—

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements :—

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

II. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered .—

Draft rules and schedule of rates of tolls

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable , in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B C) of 1864 and of these rules, be determined by the following measurements —

CLASS I

A The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied

B The measurement of the length is to be made in feet, rejecting inches, the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of

toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given ; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows :—

(1) On all vessels empty or laden, per hundred maunds	Eight annas.
(2) On all vessels empty or laden, for 12½ maunds or less	One anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth	Four annas each raft.

Tolls will be levied at Hulerhat and Perojpore.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

Rules.

1. (*1*) Tree-tapping license may be issued by the Collector on the application—

(*a*) of persons licensed to sell *tari* by retail ;

(*b*) of tappers, provided that such application is accompanied by an application for a pass for the transport of *tari* drawn to some particular shop and the latter application is countersigned or acknowledged to be correct by the shop-keeper to whose shop the *tari* is to be taken ;

(*c*) of tree-owners (for not more than three trees at a time up to a maximum of six for the whole year) or the drawing of *tari* required for domestic consumption and not for sale.

(2) Such licenses may be issued—

(*i*) in cases (*a*) and (*c*), in the name of the applicant himself or of his nominee ;

(*ii*) in case (*b*) in the name of the applicant only.

(3) The Collector may empower selected licensed vendors of excise and opium shops, other than licensed vendors of retail *tari* shops, to distribute such licenses, duly signed by the Superintendent of Excise, in case (*c*).

2. Every person applying for the grant of a license under these rules shall be responsible to Government for all sums payable as fees in respect of the trees for the tapping of which the license is required.

3. A fee of Rs. 3 shall be payable on account of each palmyra or cocoanut tree and a fee of Rs. 2 for each date tree for the tapping of which a license is applied for.

For the above two different rates of tree-tax, excise metal discs of two different kinds (one kind for trees on which a fee of Rs. 3 each is payable and the other kind for trees on which a fee of Rs. 2 each is payable) will be issued. They will be required to be affixed one on each tree as a proof of payment of fees due to Government for their tapping. Their size and other particulars will be prescribed, from time to time, by executive instructions.

The discs will be given free to applicants when supplied by Excise officers duly empowered to issue tree-tapping licenses, but if such discs are taken from a duly empowerd selected vendor by an applicant for domestic consumption to suit his convenience, a commission of annas two per disc, irrespective of the kind of the disc, shall be payable to such vendor by such applicant.

4. Any person wishing to apply for a tree-tapping license shall pay in advance the fees payable in respect of the tree which he desires to tap, except in case of applicants under clause (*a*) of sub-rule (*1*) of rule 1, in which case the fees shall be payable in such instalments as may be fixed by the Collector.

5. The fees may be paid into the district treasury or a sub-treasury by chalan, or by money-order to the Collector, or in cash to persons authorized to issue or distribute tree-tapping licenses. The commission payable to selected vendors by domestic consumers shall be paid in cash at the time of taking delivery of the excise discs.

6. Applications for the grant of tree-tapping licenses shall be made in the prescribed form to the persons authorised to issue or distribute the licenses. Forms may be obtained free of charge from the district or subdivisional office or from the Inspectors or Sub-Inspectors of Excise or from selected vendors authorised to distribute licenses for domestic consumption. The applications are to be presented personally.

7 Every person desiring to take a tree-tapping license, who has paid his fees by a chalan or money-order into a treasury, shall apply for the license, with the chalan or money-order receipt, as the case may be, within three days after such payment in the case of licensed vendors or their tappers and within one week in the case of applicants for licenses for domestic consumption.

8. On receipt of an application the persons authorised to issue or distribute tree-tapping licenses shall at once, unless there is any special reason to the contrary, take steps for the issue of the excise metal discs, according to the nature and number of trees applied for and for the issue of the license and the transport pass where necessary. The applicant, after receipt of the metal discs, shall arrange to mark the trees by affixing the metal discs thereon. If he fails to do so without any reasonable cause within seven days after the receipt of the discs, the license issued to him will be liable to cancellation under the orders of the Collector or the Superintendent of Excise.

9. The licensee shall level the surface of the tree where the disc is to be affixed before he affixes the disc to it and he shall not remove it from that place to any other place on the tree, nor shall he transfer it to any other tree. If a tree is licensed in a subsequent year, the new disc issued for that year shall be affixed to the right of, and alongside, the previous disc.

10. No *tari* shall be drawn from any tree until the tree has been marked with an excise metal disc as provided in rules 8 and 9 above.

11. The Collector may, from time to time, prescribe the minimum number of trees to be taken by retail vendors during the year. He may also direct that the trees situated in one mauza only shall be included in an application.

12. Tree-tapping licenses shall be in force from the 1st October or any subsequent date to the 30th September immediately following.

13. Applications shall be received from 1st September, but the preparation of spathes shall not be permitted before 15th September, nor shall pots be attached to trees before the evening of the 30th September. In the case of date trees the process of preparation may be allowed from the 15th September, but the incision required for the insertion of the drip leaves shall not be allowed before the evening of the 30th September. In no case shall *tari* be drawn except during the currency of the license.

14. IRRIGATION DEPARTMENT.

NOTIFICATIONS.

No. 11I.–The 24th April 1926.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council is pleased to make and fix, with effect from the 14th May 1926, the following rules and schedule of rates of toll for the Damodar Channel joining the Katcha and Baleswar rivers in the Perojpur subdivision of the Bakarganj district:—

Rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given ; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows :—

(1) On all vessels empty or laden, per hundred maunds	Eight annas.
(2) On all vessels empty or laden, for 12½ maunds or less	One anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and 5 feet in breadth	Four annas each raft.

Tolls will be levied at Hulerhat and Perojpore.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

No. 121.—The 24th April 1926.—In exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council is pleased to make and fix, with effect from the 14th May 1926, the following rules and schedule of rates of toll for the side cut along the Barisal-Patuakhali road joining Lebukhali and Patuakhali rivers in the Patuakhali subdivision of the Bakarganj district:—

Rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square-built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessel of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effcting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

(1) On all vessels, empty or laden, per 100 maunds ...	Eight annas.
(2) On all vessels, empty or laden, for 12½ maunds or less	One anna.
(3) On rafts of bamboos, grass, timber, etc., not exceeding 50 feet in length and five feet in breadth	Four annas each raft.

Tolls will be levied at Lebukhali and Lowkati kismat.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at ten times the ordinary toll.

14. Every vessel which has paid toll shall be allowed to remain in the canal for three days inclusive of the days of entry into and leaving the canal. A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month: Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

15. No vessel carrying exclusively police officers or servants, soldiers and officers of the British Army, post mail runners, officers of the Irrigation Department on duty, officers and servants of the toll office for the canal referred to in these rules while on duty, or the vessels of such other persons as may be exempted by a resolution of the District Board of Bakarganj, shall be liable for toll in the canal.

16. Any matter relating to the mode of collection of tolls and other relevant points, not provided for in these rules, shall be decided by the District Board of Bakarganj at a meeting, and shall be subject to the approval of the local Government.

(2) Where any doubt or dispute arises regarding the classification of a ship under this rule the Port Officer at the port where the doubt or dispute arises shall decide the question and his decision shall be final.

Installation to comply with requirements of Radio-telegraph Convention, 1912.

4. The installation shall comply with the requirements of the International Radio-telegraph Convention, 1912, as modified by any other international agreement or of any international agreement by which the said Convention of 1912, may be superseded.

Nature of installation.

5. The installation shall be of the spark or interrupted continuous wave type.

Installation to consist of a normal and an emergency installation except in certain cases.

6. (1) The installation shall include a normal installation and an emergency installation, except that where the normal installation complies with the requirements of this rule as to emergency installations as well as with those as to normal installations, a normal installation alone shall suffice.

He will stand erect without rigidity, and with the heels, calves, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal bar, and the height will be recorded in inches and parts of an inch to quarters In the Indian Police Force a minimum height of 5 ft. 4 ins. is required, but in other departments no fixed limit of height is enforced.

MARINE DEPARTMENT.

NOTIFICATIONS.

No. 78Marine.—In exercise of the power conferred by section 3 of the Indian Registration of Ships Act, 1841 (X of 1841) and in supersession of all previous orders on the subject, the Governor in Council is pleased to appoint the Port Officers, Calcutta and Chittagong, to be the officers for the registration of ships and grant of certificates of registry under that Act, at the ports for Calcutta and Chittagong respectively.

No. 79Marine.—The 9th June 1926.—In exercise of the powers conferred by section 126 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the Governor in Council, with the previous sanction of the Governor-General in Council, is pleased to declare that the provisions of sub-section (*1*) of section 125 of the said Act shall not apply—

(*1*) to a steam-ship having a valid certificate of survey granted either by the Government of Hong-Kong or by the Government of the Straits Settlements, and

(*2*) to a steam-ship having a certificate granted by either of the said Governments which has expired just before or after arrival of the ship at a port in British India, if the ship is returning direct to her home port and there is no reason to doubt her seaworthiness.

ENGINEERS FOR MOTOR SHIPS.

No 2255Marine.—The 11th June 1926.—Section 11 of the Indian Merchant Shipping Act, XXI of 1923, requires that every British foreign-going steamship shall be provided (*a*) if the ship is of 100 nominal horse power or upwards, with at least 2 Engineers, one of whom shall be a first class and the other a first or second class engineer duly certificated and (*b*) if the ship is of less than 100 nominal horse power, with at least one Engineer who is a first or 2nd class Engineer duly certificated and that every British home trade steam-ship when going to sea from any place in British India and every foreign steamship carrying passengers between places in British India shall be provided, if the ship is of 50 nominal horse power or upwards, with at least one Engineer who is a first or 2nd class Engineer duly certificated.

2. Section 12 states that an Engineer shall not be deemed duly certificated unless he holds a certificate of a grade appropriate to his station in the ship or of a higher grade.

3. Section 3 of the same Act provides that the provisions of the Act applying to Steam Ships shall apply to ships propelled by other mechanical power with such modifications as the Governor-General in Council may by notification in the *Gazette of India* direct for the purpose of adaptation, *vide* Government of India, Commerce Department notification No. 1775, dated the 5th March 1921.

4. Certificates of Competency for Engineers of Ships propelled by internal combustion engines are known as 'motor certificates' as distinct from 'ordinary certificates' which are issued to Engineers of Steam Ships and the conditions on which they are granted are shown in the Rules issued by the Government of Bengal for the examination and grant of Certificates of Competency to Engineers of Sea-going Steam Ships (Bengal Government notification No. 67Mne., dated 13th June 1925).

5. The 1925 edition of these rules announces that after 1st July 1925 ordinary certificates will not entitle the holders to go to sea as Engineers in ships propelled by internal combustion engines unless endorsed for that purpose.

6. In order to avoid inconvenience to owners in providing such Engineers, the Government of Bengal are prepared to consider applications for the issue of temporary permits enabling Engineers who hold ordinary certificates of competency to act as Engineers of motor ships subject to compliance with the following conditions.

7. The application should be made by the owner of the ship to the Port Officer of Calcutta through the Principal Engineer and Ship Surveyor two weeks at least before the permit is required; it should state the name of the ship and its official number (if registered) or the builders number in the case of a new ship which is not yet registered, and the name of the Engineer, the rank in which he is to serve, and the grade and number of his ordinary Certificate of Competency; and it should indicate generally the extent of his workshop and sea service both on steam engines and on internal combustion engines, and in particular the nature and amount of his experience (whether in the works or at sea) of the type of internal combustion engines installed in the ship.

8. If a permit is issued, it will as a rule hold good for a period of twelve months actual sea service, and it will therefore enable the Engineer to complete the nine months' service in motor ships necessary to qualify for examination for a motor endorsement. The examination for such endorsement will be especially adjusted to meet the case of Engineers who have already had long sea service, and a large part of it will be oral. If by the time he has completed twelve months' sea service in motor ships while holding the permit the Engineer has not obtained a motor endorsement, the permit will lapse unless, in view of the special circumstances of the case, the Port Officer of Calcutta should, subject to the sanction of the Local Government, extend it.

Penal Servitude.

Effect of sentence of penal servitude.

58. Where a sentence of penal servitude is passed by a court-martial, the military convict shall, as soon as practicable, be committed to a penal servitude prison to undergo his sentence according to law:

Provided that where the sentence was passed for an offence committed on active service, the competent military authority may order that any part of the sentence, not exceeding two years, shall be served in a military prison in accordance with rules made for the purpose under this Act, and in such case the provisions of this Act with respect to penal servitude (except those relating to the treatment of a military convict on arrival at a penal servitude prison), shall, with respect to the part of the sentence to be so served, have effect as though for references to a penal servitude prison there were substituted references to a military prison.

Place in which sentence to be served.

59. The penal servitude prison to which a military convict is committed shall be a penal servitude prison in the United Kingdom, unless the convict—

(*a*) was sentenced in India or a colony, and belongs to a class of persons with respect to whom the Secretary of State by declaration laid before both Houses of Parliament has declared that by reasons of climate, place of birth, place of enlistment or otherwise, transfer to the United Kingdom would not be beneficial ; or

(*b*) was enlisted in a colony, and belongs to a class of persons so enlisted with respect to whom the Secretary of State has arranged with the Governor of that colony that they may, if sentenced to penal servitude, be transferred to or kept in the colony and there undergo sentence,

in either of which cases he may undergo his sentence in India or the colony, as the case may require.

Interim custody of military convict before arrival at penal servitude prison.

60. (1) Until transferred to a penal servitude prison a military convict—

(*a*) if in the United Kingdom or a foreign country, shall be kept in military custody ;

(*b*) if in India or a colony, may be kept in military custody or in civil custody, or partly in one description of custody and partly in the other, and may, by order of the competent military authority, from time to time be transferred from military custody to civil custody and from civil custody to military custody as occasion may require.

(2) A military convict in India or a colony may, whilst in civil custody in any prison, be dealt with, in respect of hard labour and otherwise, according to the rules of that prison.

Committal, removal, release, etc., of military convict.

60. (1) An order of the competent military authority shall be a sufficient warrant for the committal of a military convict to a penal servitude prison.

(2) An order of the competent military authority shall be a sufficient authority for the transfer of the military convict from military custody to civil custody and from civil custody to military custody, and his removal from place to place, and for his detention in civil custody, and generally for dealing with such convict in such manner as may be thought expedient until he is transferred to a penal servitude prison.

(3) A military convict at any time either before or after his arrival at a penal servitude prison, may, if his sentence is remitted, be released by order of the competent military authority.

(4) A military convict may, during his conveyance from place to place, or when on board ship or otherwise, be subjected to such restraint as is necessary for his safe conduct and removal.

Treatment of military convict in penal servitude prison.

62. After a military convict has arrived at a penal servitude prison to undergo his sentence, he shall be dealt with in the same manner as an ordinary civil prisoner under sentence of penal servitude; and all enactments relating to a person sentenced to penal servitude by a competent civil court shall, so far as circumstances admit, apply accordingly.

Imprisonment and Detention.

Effect of sentence of imprisonment or detention.

63. (1) Where a sentence of imprisonment is passed by a court-martial, the military prisoner shall undergo the term of his imprisonment either in a military prison, or detention barrack, or in other military custody, or in a civil prison, or partly in one way and partly in another.

(2) Where a sentence of detention is passed by a court-martial or a commanding officer, the person on whom that sentence has been passed shall undergo the term of his detention either in a detention barrack, or in military custody, or partly in one way and partly in the other, but not in a prison.

Place in which sentence to be served.

64. (1) Subject to the provisions of this section, a military prisoner or soldier under sentence of detention who was sentenced or is undergoing his sentence in the United Kingdom shall not be removed to a prison or detention barrack elsewhere, unless he was enlisted in a colony and belongs to a class of persons so enlisted with respect to whom the Secretary of State has arranged with the Governor of that colony that they may, if sentenced to imprisonment or detention, be transferred to the colony and there undergo sentence, in which case he may be removed to a prison or detention barrack in that colony.

(2) The competent military authority may give directions for delivery into military custody of any military prisoner or soldier undergoing detention, and the removal of such prisoner or soldier, whether with his corps or separately, to any place beyond the seas where the corps or any part thereof to which for the time being he belongs is serving or under orders to serve.

(3) A military prisoner or soldier under sentence of detention who was sentenced in a foreign country shall undergo his sentence either in that foreign country, or in any foreign country in which the force with which he is serving may be, or in the United Kingdom, or in such other place as may be prescribed.

(4) A military prisoner or soldier under sentence of detention who was sentenced in India or a colony shall undergo his sentence either in India or in that colony (as the case may be), or in such other part of His Majesty's dominions as may be prescribed or in the United Kingdom:

Provided that—

(*a*) if the term of his sentence exceeds twelve months, he shall be transferred as soon as practicable to a prison or detention barrack in the United Kingdom, unless—

(*i*) he belongs to a class of persons with respect to whom the Secretary of State by declaration laid before both Houses of Parliament has declared that by reasons of climate, place of birth, place of enlistment or otherwise, transfer to the United Kingdom would not be beneficial, or

(*ii*) the court for special reasons otherwise orders,

and any order which may be made under this provision by the court may be made by the confirming authority in confirming the finding and sentence, and in the case of any commutation or remission of sentence may be made by the authority commuting or remitting the sentence, and

(b) a military prisoner or soldier undergoing detention in India or a colony shall not, for longer than is absolutely necessary, be detained in any civil prison other than a prison in respect of which arrangements have been made by the Secretary of State under this Act with the Governor General of India or the Governor of the colony.

Interim custody of military prisoner or soldier undergoing detention.

A military prisoner or soldier undergoing detention may until he reaches the prison or detention barrack in which he is to undergo his sentence, be kept in military custody, or in civil custody or partly in one description of custody and partly in the other, and may, by order of the competent military authority, from time to time be transferred from military custody to civil custody, and from civil custody to military custody as occasion may require.

Committal, removal, release, etc., of military prisoner or soldier undergoing detention.

66. (1) An order of the competent military authority shall be a sufficient warrant for the committal of a military prisoner to prison or a detention barrack, or a soldier under sentence of detention to a detention barrack.

(3) Whereas it is expedient that a clear difference should be made between the treatment of prisoners convicted of breaches of discipline and the treatment of prisoners convicted of offences of an immoral, dishonest, shameful, or criminal character, or sentenced to be discharged from the service with ignominy, a Secretary of State shall from time to time make rules for the classification and treatment of such prisoners.
